Notice dated 29th January 1927.

Bye-laws regulating buildings and other structures in the Town of Sagar and framed under Section 48 (1) (P) of the Mysore Municipal Regulation VII of 1906.

Any resident within the area of the Sagar Town Municipality who has any objection or suggestion with respect to the draft bye-laws should communicate the same to the President, Sagar Town Municipality within one month from the date of publication in the *Mysore Gazette*.

1. Every person intending to erect or re-erect within the meaning of Sections 92 to 96 of the Mysore Municipal Regulation No. VII of 1906 any building in the Town of Sagar shall give notice in writing of his intention to the President or Vice-President.

2. Such notice shall be accompanied with a site plan of the land on which such structure is proposed to be built drawn to a scale of not less than 10 ft. to an inch showing;

(*a*) The position of building and appurtenant out-buildings to be erected on the land.

(*b*) The area to be occupied by the building and out buildings on the land.

(*c*) The name (if any) or description of the adjacent roads, streets, bridges, culverts, or buildings and,

(*d*) the name of the street in which the land is situated.

3. The plan should be in duplicate and it shall show in section and elevations the plan of the ground floor and of each other floor, the width and thickness of the foundations. The height and thickness of the plinth and walls of the rooms and the projections and structure of the roof. It shall also show the position of the line or frontage of the proposed building with reference to the side drain of the street or road which the building faces or if there is no such drain with reference to the central line of the street or road.

4. After an inspection of the plan and site if necessary, a license will be issued to the applicant for the construction of the building in accordance with the provisions of these bye-laws and this license as well as the plan shall always be available for inspection by the Municipal authorities.

5. No foundation of a new building intended for human occupation shall be constructed on a site which has been filled up with or used as a place for depositing excavations matter or the carcasses of dead animals, or other filth or offensive matter unless such matter shall have been properly removed to the satisfaction of the President or Vice-President and shall in their opinion have become innocuous.

6. No shop or market place, manufactory or place of public resort shall be built in the midst of localities recorded for residential purposes unless specially authorised by the Municipal Council.

7. No pit shall be excavated in the site or in the vicinity for the purpose of using earth for the building and the pits if so excavated shall be filled up within a reasonable time.

8. No building site shall be surrounded by a hedge of lantana, aloes, prickly pear or any objectionable plants or by a fence of barbed wire.

9. No new building shall be erected by any person the foundation of the wall of which along the road is less than three feet from the side drain.

10. The level of the basement of any building shall not be less than 1 foot and a half above the ground level.

11. The footings of the walls and the posts of the ground floor of the building proposed to be erected should rest on solid ground or upon a thickness of concrete or upon some solid structure as a foundation.

Provided that where solid rock is met with at or near the surface of the site of such building within three feet of the level of the base of the wall, the footings may be omitted if the surface of the rock be properly cleaned and stepped or jagged to receive the first course of masonry.

The minimum height of every room intended to be inhabited in a building except a room in the roof shall not be less than 7 feet from the floor to the ceiling and the rooms shall be well ventilated.
